Work Experience

React js Developer @ Diligent Soft IT

Bangladesh, Internship, October 2023 - present

Diligent Soft IT is a venture studio and consulting company based in Bangladesh. Working as a full-stack Developer & creative lead, responsible for building REST API, handling requests and maintaining databases.

Technology: Javascript, Node.js, Express.js, MongoDB, Firebase, React, Next, Mongoose, PostgreSql, WordPress, Laravel, PHP, SEO

- Led a team to develop a large-scale web scraping tool using Puppeteer and Selenium with Node.js, capable of scraping millions of data from various e-commerce sites in Bangladesh
- Automated email processes, reducing manual workload.
- Handled transactional operations using MongoDB, ensuring data consistency and reliability
- Developed an accounting process to manage financial data and track expenses
- Hooked up REST API to front-end, improving overall user experience and accessibility.

Projects

Aabason (Aabason is a flat buying and selling website)   **Live Site: https://aabason.com**

Successfully spearheaded the development of a full-stack residential website, aabason.com, showcasing a robust blend of modern web development technologies. Proficiently utilized Next.js, JavaScript, Bootstrap, Swiper, Firebase, Express.js, Node.js, PostgreSQL, JWT etc. to create a dynamic and feature-rich platform.

Key Features:

- Created REST API using Node.js and PostgreSql to facilitate seamless communication between the front-end and back-end systems.
- Crafted a user-friendly and visually appealing website with a responsive design, ensuring a consistent experience across various devices.

- Ensured cross-browser compatibility, guaranteeing a consistent and reliable experience for users across different web browsers.
- Implemented robust security measures, including secure authentication and authorization mechanisms using JSON Web Tokens (JWT), ensuring data integrity.
