# Sadiqur Rahman

Front End Developer

Narayangonj, Dhaka, Bangladesh

**Github** || **Portfolio** || **Linkedin**

## Career Objective

I am a well-versed Front End developer & designer with 3+ years plus experience. I have led many projects from design to deployment which have impacted thousands of people. I love to blend my skills in the most creative way possible.

## Work Experience

**Diligent Soft IT**                                                                                        Dhaka, Bangladesh

*Front End Developer*                                                                          January 2022-( Present )

**Technology:** Javascript, Node.js, Express.js, MongoDB, Firebase, React, Next, Mongoose, PostgreSql, WordPress, Laravel, PHP, SEO etc.

## Projects

**Aabason (Next.js)**                                                       Live Site: https://aabason.com

- Collaborated on developing the full frontend of the platform, focusing on responsive design and optimizing user experience.
- Utilized HTML, CSS, JavaScript, and Next.js to build a responsive and dynamic user interface.
- Worked closely with the backend team to integrate MySQL databases for real-time property listings and user data management.

**eShikhon ( React.js )** - Present                                    Live Site:https://www.eshikhon.site/

- Collaborated on developing the full frontend of the platform, focusing on responsive design and optimizing user experience.
- Utilized HTML, CSS, JavaScript, and React.js to build a responsive and dynamic user interface.
- Implemented robust security measures, including secure authentication and authorization mechanisms using JSON Web Tokens (JWT), ensuring data integrity.
